GETTING TOGETHER

You told us in our April survey that you liked getting together in small groups at each others homes and if possible outdoors. So...

June saw the return of warmer weather and in person get-togethers! Ginny H hosted two lunches in June for members and volunteers of WLLO. Everyone brings their own lunch and beverage and sits in Ginny's new covered patio. The June 14 lunch was cool but dry, we all took a tour of Ginny's back yard. Hopefully, these lunches will continue as weather allows. They are limited to six people and are first come first serve when the notice is sent out by Suanne.

Other members have offered to host, so please keep an eye out for these events!

June 28 Left to Right: Jeannie M, Ginny H, Marge W, Jane L, Jan S and Cathryn O

We are welcoming new member Anita M. A heartfelt 'welcome' and thank you for joining our community and for your help to keep it growing!

It Stopped Raining!

It stopped raining! And, things are finally growing at our WLLO Luscher Farm community plot! That includes the weeds that relished every raindrop.

We've added some starts to our garden: tomatoes, beans and squash. There are lots of beautiful snap peas.

Please come to Luscher for a walk around the many gardens and if you have any inclination give those weeds a pull. See you there! Shall we plan a picnic or two?

Marjorie

Save the Date July 13 5-7 pm

WLLO Village is participating in the local "Soil Your Undies" study through the Oswego Lake Watershed Council. 125 pairs of 100% cotton "tighty whities" have been buried in 73 residences, including WLLO Village's Adopt-A-Plot at Luscher Farm! In 60 days the undies will be dug up and compared to see which have decomposed the most! The more your undies break down, the more active the biological community in your soil is! Here's a photo of Marjorie "planting" a pair of undies in our garden plot, and Ellen showing our results. WLLO has terrific soil as you can see. The big reveal for the Oswego Lake Watershed Council is scheduled for Wednesday July 13 5:00- 7:00 in West Waluga Park.

July Birthdays

Our best birthday wishes to our July birthday ladies and gentleman: Dan W., Ellen B., Miriam F., Laura M., and Jeannie M. We hope you will celebrate in style. Our best wishes for health and happiness for the year to come and beyond.

TAKE IT OFF. TAKE IT ALL OFF.

Labels that is. Paper labels that are glued to plastic mailing envelopes. You know, those blue and white padded plastic Amazon envelopes that arrive three times a day in the dark gray truck.

But you can leave your hat on.

Those paper labels must first be cut off before you can put them in another

plastic bag so your WLOO recycling team (RT) can spirit them away to become new decking materials.

If paper labels are left on plastic bags, mailers and food wrapping, they contaminate the plastics in the recycling process, and hence become garbage. But we don't want that. We want those materials you've given to the intrepid WLOO RT to arrive at their recycling destination pure and clean. So be sure to take just a minute to cut those paper labels off plastic mailers before recycling.

Those of you who get prescriptions from Kaiser experience the luxury of receiving your drugs in plastic mailers with the label printed on the bag. Lucky you! Toss the whole thing in your recycling bag.

Paper envelopes & mailers

Paper envelopes with paper labels can go right in your curbside-recycling bin. The glues on the labels are washed away in the pulping process.

Paper mailers with a plastic or bubble wrap interior lining on the other hand, are garbage. Into the trash bin they go.

So while we're on the topic of dos and don'ts of recycling, let's look at some other items of interest.

Can & jar labels

Metal cans and glass jars both go through a recycling process that involves extreme heat to melt the items back into the raw materials from whence they can. And the paper is completely burned in the process.

So no worries about taking labels off cans and glass jars. Unless you're a maudlin recycle fanatic like me. I take the labels off cans and toss in the recycle bin so they can avoid a fiery death, and instead be rendered back into another paper product. Cans of course are put in your curbside bin, and glass jars in a separate bin.

Cardboard box tape & labels

Don't worry about removing paper labels from cardboard boxes. And some sources say it's ok to leave packing tape and plastic shipping label sleeves on cardboard boxes. It's true that these contaminants can be removed in the recycling process, but it is also true that excess tape and plastic gum up the works and create a co-mingled glob of plastic/paper garbage.

I would encourage our conscientious members to remove as much tape as possible, and also rip off those nasty plastic shipping label sleeves. And cardboard goes into the curbside bin.

Window envelopes

Hallelujah! Finally. A mixed media product that can just be tossed into the curbside-recycling bin. Almost all windows in these envelopes are either glassine or cellophane, both of which are derived from paper.

So do a dance around your recycling bin as you toss window envelopes into it like flower petals in a Maypole dance.

And remember this. Regardless of the class of items the WLLO RT is picking up each month, we always take plastic film.

But also remember this. Your WLLO RT members are just like you. Highly experienced in Earth years. So to prevent hyperventilation and high blood pressure in our crew, please adhere to the gentle reminders given above. We love you guys and gals. Thanks.

WLLO RECYCLING COLLECTION SCHEDULE

Important note: Every month we pick up plastic film, and that includes all clean clear #1 PET plastics. Yes those ubiquitous clamshell containers we hate to throw away.

July 12: Furniture, linens, kitchen utensils, decorative items, rugs etc. Items are donated to the Community Warehouse. See what they accept at <https://www.communitywarehouse.org/give-furniture/>.

August 9: Hazardous products, old cans of paint etc. View the Oregon Metro website for hazardous products at <https://www.oregonmetro.gov/tools-living/healthy-home/common-hazardous-products> for a current list of acceptable items.

September 13: Building materials, tools, fixtures, fasteners etc. Check out the Rebuilding Center website at <https://www.rebuildingcenter.org/donations#guidelines>.

October 11: Electronics and everything with a power cord are taken to Free Geek. Find out what they take at <https://www.freegeek.org/take-action/donate-technology>. We'll also pick up Styrofoam blocks and packing peanuts, and #6 PS plastic containers. Please separate the two. Please contact Suanne Jackson at suannej@wllovillage.org if you have items to be picked up on July 12.

On Vacation in July...

The NO-GUILT Book club is taking a summer vacation, and will not meet in July! Use the time to relax outside with your summer reading. The NO-GUILT Book Club usually meets on the second Tuesday of the month. We are called the no-guilt book club because you can attend no matter what you read, or even if you didn't read anything at all. Just come and talk about books!

We will meet again the 2nd Tuesday in August (August 9). If the weather is going to be nice, we will try to have the August book club meeting outdoors. Otherwise we will be on zoom. We will send an email out closer to August 9. As usual it is fun to chat with anyone who shows up even if you didn't read a book on our theme or anything at all. All are welcome!

WLLO Events in the Month of July

Check out our new and improved calendar on our homepage www.wllovillage.org. It's easier to read, you can change how information is being displayed and you can print.

If you know of any event that would be a great addition to our activities, or if you have comments or suggestions about an event you attended, we want to hear from you. Please email us at info@wllovillage.org or leave us a message at (503) 308 8223.

Please understand that some of these events are for members only. We welcome your interest and are always looking for ways to accommodate everyone as much as possible.
